Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Wednesday 09 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Grey and damp in the west. Brighter further east.2.

Today:
Overnight fog quickly clears inland, though turning increasingly cloudy through the day. Sunny spells where breaks in the cloud allow, brighter in the east of the region. Patchy light rain occasionally falling, primarily in western areas. Feeling warm. Maximum temperature 23 deg C (73 deg F).

Tonight:
Cloudy conditions with patchy light rain continuing this evening and overnight, with a few clear spells across the region. Driest in the east. Overnight fog patches developing again for many. Minimum temperature 12 deg C (54 deg F).

Thursday:
Overnight fog soon clearing inland, with sunny spells developing, especially further east. Some coastal areas remaining misty.Scattered showers for many in the afternoon. Feeling warm. Maximum temperature 24 deg C (75 deg F).

Outlook for Friday to Sunday:
Rather cloudy on Friday, with occasional patchy rain. Dry and bright on Saturday and Sunday. Warmest on Sunday for most. A risk of some coastal fog, at least at first.
